MEMORY EXERCISE

SFX: Old fashion slide projector motor; slides changing in the carousel.

We'd like you to participate in a brief experiment.

We've put a number on the screen and we'd like you to memorize it.

We know this it tough, so we want to show you the number again.

...oh, ...eh, ...oops, sorry...

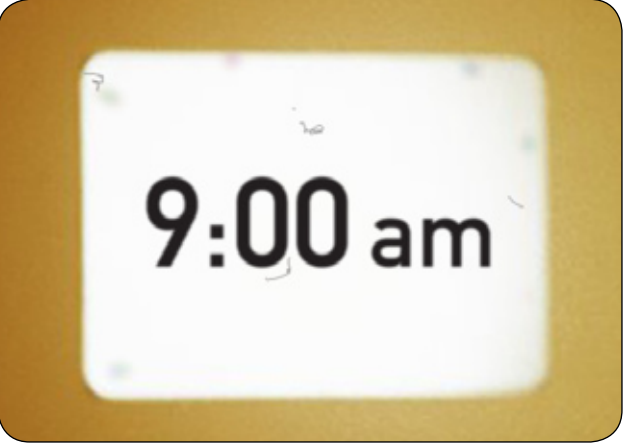

um, wait, here we go...

Now concentrate, got it?

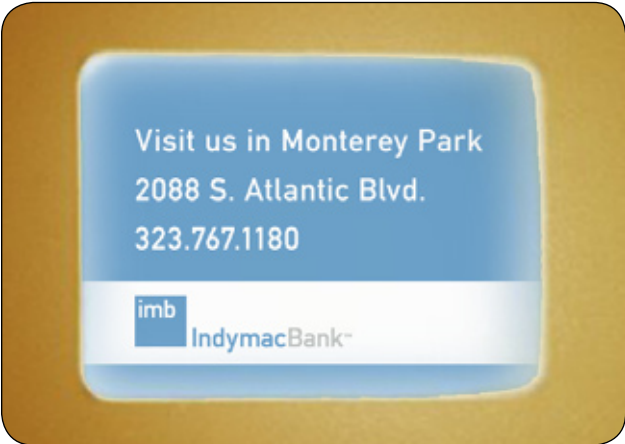

Did you forget? Don't worry, just stop by your Indymac branch and we'll remind you.

The only number you really need to remember is 9. It's when our branches open.

INDYMAC WEATHER FORECAST

And we're back...let's go to the Indymac Savings Rate Forecast...we are seeing a lot of activity...

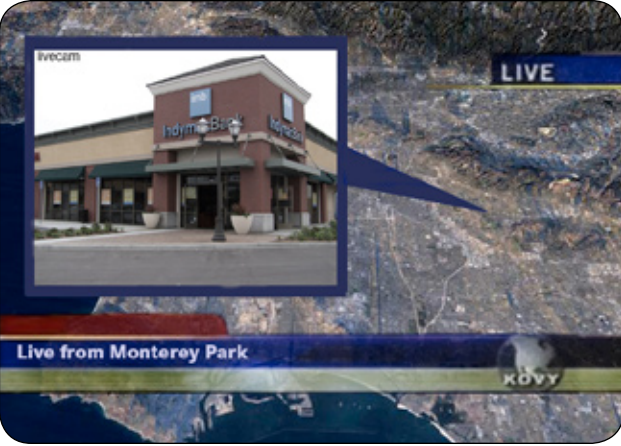

...apparently, there's a ridge of high CD rates building over the southland...

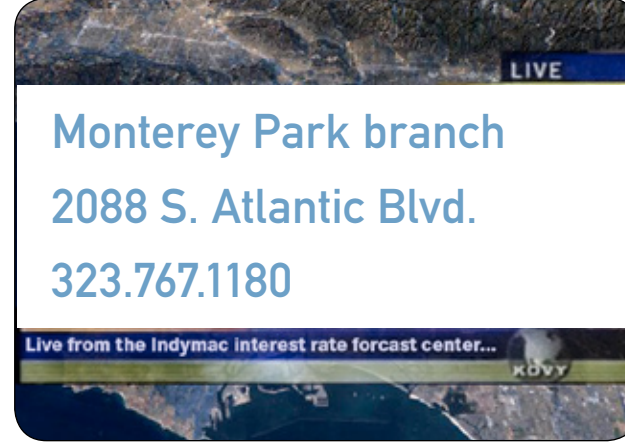

let's zoom in and see where this high rate system is located...

For the next few days, this system looks really stable...how long is it gonna last? Check back next week...

...let's get some more details from our Monterey Park cam...apparently the source of the surge in rates is Indymac Bank.

...it's safe to say this pattern will last over the weekend...so enjoy it while you can.

This Saving Rate Forecast was brought to you by Indymac Bank.
