There's a great deal to taking care of the business of business. There are meeting schedules, catering plans, seating charts and a host of loose ends to tie up. Sometimes those loose ends need to be sewn up. Case in point, our guest with only minutes to spare before an important meeting—and no spare trousers. A word with our concierge, a moment to recline and a prompt start to business. At The Island Hotel, it all works out in the end.

Executive chef Bill Bracken's Heirloom Tomatoes feature succulent, zesty heirlooms dating back to the 1900s. Lightly marinated with Buratta cheese, sprinkled with microbasil and delicately drizzled with aged balsamic vinegar, your mouth will be very much aware of the subtle attention to detail, even if your eyes are not. Come see what you've been missing. For breakfast, lunch and dinner, or for information, call the Palm Terrace Restaurant at 1.949.760.4920.
